

# HOMEMADE PAINT

AN EASY WAY  
TO BECOME  
AN ARTIST!

## SUPPLIES NEEDED

- 1 cup salt
- 1 cup flour
- 1 cup hot water
- Food coloring

## STEPS TO MAKE YOUR OWN PAINT

1. In a large bowl, stir together the salt and flour until mixed well.
2. Stir in the water and mix until smooth.
3. Divide into containers and then add food coloring. Stir well.

*TIP: Add the paint to empty squeeze bottles for a fun art activity for little ones. If the paint is too thick to squeeze out easily, add a little more water.*

*Flour paint will not keep for a long time like acrylic paint. If you want to use it again after painting, store it in the refrigerator for up to a week. Stir well before using again as the flour and water will separate.*

## DID YOU KNOW?

It takes 570 gallons of paint to cover the exterior of the White House, located in Washington D.C.
