

BOUNCY EGG

THE LARGEST EGG
EVER LAID BY A HEN
MEASURED 9.1
INCHES IN DIAMETER

SUPPLIES NEEDED

- Raw egg
- Glass or jar
- White vinegar
- Plate or container

HOW TO MAKE A BOUNCY EGG

1. Place raw egg in a glass or jar
2. Fill glass or jar with white vinegar
3. Leave the egg in the glass for 2-3 days
4. After a few days, the egg will become translucent, rinse it under water gently.
5. Over a plate or container, lift the egg 1-2 inches in the air and watch it bounce!

ONE STEP FURTHER

You can try the same experiment above with other acids, types of eggs, and food coloring! Try it with lemon juice, white vs brown shells, regular vs organic eggs or even different type of eggs! You can also add food coloring to your vinegar to make a colorful bouncy egg.
