

# KITE

PERFECT ACTIVITY  
FOR A  
WINDY DAY!

## SUPPLIES NEEDED

- Paper lunch bag
- Yarn or strong string
- Popsicle sticks
- Scissors
- Streamers, markers, paint, crayons, stickers
- tape

## HOW TO MAKE A KITE

1. Decorate a paper lunch bag with markers, paint, crayons, stickers, or whatever else you have. Make sure the paint is dry before moving on.
2. Cut a little hole in the bottom base of the bag.
3. Cut a piece of yarn about 3 to 4 ft long. Tie one end to the middle of a popsicle stick and feed the other end through a hole in the bag. You will want the popsicle stick inside of the bag ... it keeps the string from falling out while flying the kite.
4. Add streamers to the opening of the paper bag.
5. Go fly your kite!

## DID YOU KNOW?

The earliest kites were flown thousands of years ago and made of leaves. Kites fly best in windspeeds that are 4-10 miles per hours. Kites were used in the American Civil War to deliver letters and newspapers.
