

# FLUFFY CLOUD DOUGH

SO SIMPLE!  
ONLY TWO MAIN  
INGREDIENTS!

## SUPPLIES NEEDED

- 1 cup cornstarch
- 1/2 cup scented lotion
- Food coloring

## STEPS TO MAKE YOUR OWN CLOUD DOUGH

1. Measure and put the cornstarch in a large mixing bowl.
2. Add lotion and a few drops of food coloring.
3. Use a spatula to mix until it gets hard to stir.
4. Use your hands to finish kneading the dough. (You can put it in a zipper seal bag if that's easier.)

Now it's ready for play!

To store - wrap your dough in plastic wrap then store in an air-tight container or zipper bag. If it dries out, just add a little lotion.

## DID YOU KNOW?

Clouds look like they weigh little more than a tuft of cotton, but they're heavier than they look. Your average cumulus (fair weather) cloud can weigh more than a million pounds, and a thunderstorm can pack billions (if not trillions) of pounds of water in one tiny part of the sky.
