

PENNY HIKE

A GREAT ACTIVITY
FOR THE WHOLE
FAMILY!

SUPPLIES NEEDED

- One penny
- Comfortable shoes

HOW TO TAKE A PENNY HIKE

The idea is that you take a penny and go outside. Decide if *heads* means left or right, and flip the coin. You follow that direction.

Flip at each fork or intersection to see which way to go. Don't get lost!

Keep doing this until you are about half the distance you want to walk. If you know the area, you can walk back a different way or just go back the way you came.

Everyone can take turns flipping the coin.

DID YOU KNOW?

Pennies were the first coin minted in the United States, and the average penny last 25 years. Approximately 30 million pennies are produced every day. Today's pennies cost more than their face value to produce – almost 2 cents each.
